John,
The OSC for the removal work is out of the office. He will provide the Action Memo on Monday.
Also, Site Assessment will be talking with Joseph VU and providing site information.
If there is something else we can help you with, let me know.

Carlos A. Sanchez
Chief, Superfund AR/TX Section

John,
This site is actually the Lane Plating site that EPA has conducted removals and is working on a ranking package. Our site assessment section has made contact with Joseph Vu and they were going to talk with him about the site later today. I will check on the Action Memo. CAS

Subject: Wayne Plating Removal Site - Dallas

Hey, Carlos:

I just left you a VM message about the Wayne Plating site, which is adjacent to a Dallas Park and Recreation Dept. property. We believe the Region conducted a removal action there relatively recently to deal with the usual hazardous substances associated with metal platers. Anyway, the Park Dept. has a property that is adjacent and/or downgradient, and Joseph, our environmental engineer, has had contacts with a TCEQ person, Rebecca Stern, regarding access to do some sampling.

I told Joseph and his boss, Lori Frauli, that I'd get ahold of you and see if I can get a copy of the Action Memo you guys would have had to authorize the removal action. I gather the listing people are working on the site and are at some stage of preparing a ranking package. I'd like to talk to you about that, too.

So, when you get a chance, could you give me a call at my number below so we can talk about this, and catch up?
